VICTORIA, B.C., DECEMBER 1, 1985

To Robert G. Rogers,
Lieutenant Governor of the Province of British Columbia.

MAY IT PLEASE YOUR HONOUR:

The undersigned has the honour to present the Report of Vital
Statistics in the Province of British Columbia for the year 1984.

J. A. Nielsen
Minister of Health

MINISTRY OF HEALTH
VICTORIA, B.C., DECEMBER 1, 1985

The Honourable J. A. Nielsen,
Minister of Health,
Victoria, B.C.

SIR: I have the honour to submit the One Hundred and Thirteenth
Report on Vital Statistics in the Province of British Columbia.

I have the honour to be,
Sir,
Your obedient servant,

S. P. DUBAS
Deputy Minister of Health

DIVISION OF VITAL STATISTICS,
VICTORIA, B.C., DECEMBER 1, 1985

Stan Dubas,
Deputy Minister of Health, Victoria, B.C.

SIR: I have the honour to submit the One Hundred and Thirteenth
Report on Vital Statistics in the Province of British Columbia for the
year ended December 31, 1984.

I have the honour to be,
Sir,
Your obedient servant,

A. H. HERSOM
Director of Vital Statistics

INTRODUCTION

The Division of Vital Statistics is responsible for ascertainment, registration and certification of vital events by administering statutory registration functions under the British Columbia Vital Statistics Act, Marriage Act, Name Act and Wills Act.

The Division also maintains a provincial registry of handicapping conditions and congenital anomalies.

The data base of these events provides a spring-board for health research, program evaluation, management statistics and biostatistical services to health related agencies.

This publication is a summary of Vital Statistics in the Province of British Columbia, for 1984.

POPULATION

The 1984 population in British Columbia was estimated at 2,870,700 of which 1,425,400 were males and 1,445,300 were females.

28 percent of the total population were under 20 years of age; 45 percent, between 20 and 49 years of age; 15 percent, 50 to 64 years and 12 percent, 65 years and over.

BIRTHS

1984 live births in British Columbia totalled 44,040, compared to 43,047 in 1983. The birth rate was 15.3 per 1,000 population, the same as recorded in 1983.

Live born infants weighing 2500 grams or less (considered premature by weight) accounted for 5.1 percent of all live births.

The average age of women having a live birth in British Columbia was just under 27 years.

6.8 percent of all live births were delivered to women 35 years and older, up from 6.2 percent in 1983 and 5.6 percent in 1982.

2,651 or 6 percent of all live births were delivered to women under 20 years of age, down from 2,885 or 6.7 percent in 1983.

The average birthweight of a live born infant was 3,428 grams.

First live births accounted for just under 47 percent of all live births.

DEATHS

20,781 deaths were recorded in 1984 for a rate of 7.2 per 1,000 population.

Acute and chronic Ischemic Heart Disease and Malignant Neoplasms were the leading causes of death, each accounting for 26 percent of all deaths. Cerebrovascular diseases accounted for 8 percent of all deaths.

Deaths from motor vehicle accidents numbered 533 in 1984 with a rate of 18.6 per 100,000 which is a further decline from the previous two years and is the lowest since 1963.

The suicide rate was 13.9 per 100,000 population compared to a rate of 14.8 in 1983.

Infant mortality rate in 1984 was 8.5 per 1,000 live births. About 50 percent of these deaths occur during the first week of life.

The early mortality death rate (0-6 days), was 4.3 per 1,000 live births compared to 4.6 in 1983.

Stillbirths accounted for two thirds of all Perinatal Deaths (Stillbirths plus Early Neonatal Deaths) and recorded a rate of 6.9 per 1,000 births compared to 7.3 in 1983.

MARRIAGES

The number of marriages recorded in 1984 was 23,394 compared to 23,692 in 1983.

Additional and more detailed data can be obtained on direct request to the Division of Vital Statistics.

Birth, Death and Marriage Statistics shown in this report may not agree with those published by Statistics Canada. A redistribution of these events, occurring to residents of British Columbia outside the Province are processed by Statistics Canada and these are not included in this report.

ADMINISTRATIVE PRODUCTION

For reference we have provided a capsule of administrative production statistics, followed by a summary of Birth, Death and Marriage records for 1964, 1974 & 1984.

FISCAL YEAR1984 / 1985

Certificates issued	124,316
Wills Notices processed	84,598
REVENUE RECEIVED	\$1,650,959.00

Table 10. **INFANT & NEONATAL DEATHS, STILLBIRTHS & PERINATAL MORTALITY**
British Columbia, 1973, 1974, 1983 & 1984

	1973		1974		1983		1984	
	NO.	RATE	NO.	RATE	NO.	RATE	NO.	RATE
Infant Deaths ¹	591	16.7	572	16.1	368	8.6	374	8.5
Neonatal Deaths ¹	380	11.1	364	10.3	216	5.0	213	4.8
Early Neonatal Deaths ¹	333	9.7	325	9.2	197	4.6	189	4.3
Stillbirths ²	339	9.5	364	10.2	318	7.3	303	6.9
Perinatal Deaths ²	672	19.4	689	19.2	517	11.9	492	11.1

1) Infant & Neonatal Deaths are rated per 1,000 Live Births.

2) Stillbirth & Perinatal rates are rated per 1,000 total Births.
